PLANNED PROGRAM

Water Resources & Environmental Protection Academy

Water quality, conservation, purification, sanitation, and community infrastructure.

Program status: Planned

This academy is in the planning stage. Courses and credential opportunities in this brochure are proposed and subject to confirmation. Tuition, start dates, duration, prerequisites, and delivery format are shared only once confirmed.

About this academy

This academy is planned for learners interested in protecting water quality and supply, and in planning the systems that deliver safe water and sanitation.

Proposed coursework includes water resource management, purification technologies, drinking water safety, conservation, hydrology, sanitation systems, and community infrastructure planning.

Proposed courses (7)

On screen, select a course title to register your interest in that course.

01	Water Resource Management	PLANNED
02	Water Purification Technologies	PLANNED
03	Drinking Water Safety	PLANNED
04	Water Conservation Strategies	PLANNED
05	Hydrology Fundamentals	PLANNED
06	Sustainable Sanitation Systems	PLANNED
07	Community Water Infrastructure Planning	PLANNED

Proposed credential opportunities

- Water Management Specialist (proposed)
- Water Safety Technician (proposed)

Proposed credential opportunities are planned titles only. They are not evidence of recognized certification, accreditation, or authorization to award degrees, and will be confirmed before any program opens.

Career pathways

Related career interests for learners in this academy:

- Water and wastewater operations
- Conservation programs
- Water quality monitoring
- Community water planning

Catalog career-interest areas covered: Planning, policy & resilience, Environmental field work, Operations & maintenance, Design & engineering, Data & digital technology.

A Workforce Development Hub is planned to connect learners with an employer job board, internships, apprenticeship matching, mentoring, and resume and interview preparation. These services are not yet active.

Career interests describe related fields of work. They are not a promise of employment, internships, salaries, or job placement.
